27V550T

27" (Diagonal) Stereo Television with VPORT™

Features	Benefits
Exclusive RCA VPORT™	A unique jack which simplifies connection of Microsoft's Xbox™ video game console. Also functions as a second component video input with optional cable.
Component Video Input (Y Pr Pb) on rear allows a single device with Y Pr Pb outputs (such as a DVD player, or a satellite receiver) to be connected.	Improves video quality by separating the signal into 3 video connectors. Provides more vibrant, sharper images compared to single video inputs.
Connections for 2 rear L+R+V devices (when Component Video input unused), plus 1 set of front L+R+V inputs. A rear L+R+S-Video can be substituted for L+R +V input.	Simplifies connecting other devices such as a game system, digital camera, or VCR. Stereo audio outputs offer selectable fixed or variable output.
Digital 3-Line Comb Filter	Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.
Wide Band Video Amplifier	Premium-engineered chassis includes high-resolution performance-grade video amplifier for improved picture quality.
Sound Logic™	Provides consistent volume levels throughout programming & channel changes. Eliminates annoying "blast" of sound during some commercial breaks.
KidPass™ - Parental Control	Allows predetermined viewing time (up to 16 hours per day) to be set in 30-minute increments with a password. Allows daily setting over 7 days.
